## AQUATICS PROGRAMS – THE BENEFITS ARE ENDLESS!

The City of Huntington Beach is a proud provider of the complete American Red Cross (ARC) aquatic program. The Community Services Department considers affordable and accessible swim and aquatic programs an essential service for our waterfront community and offers swim lessons to infants beginning at 6 months of age. Aquatic programs for youth continue in a linear fashion through the ARC Learn-To Swim levels. Proficient swimming skills can lead to more advanced aquatic opportunities including the Annual Pier Swim and the City of Huntington Beach Junior Lifeguard program! (More information is available at [www.juniorguard.com](http://www.juniorguard.com)) In addition, pool lifeguard and water safety instructor classes are also offered by the American Red Cross. Aquatic programs for adults are available year round and are a great form of low-impact exercise and social interaction. The benefits of swim and aquatic programs include Water Safety, Health and Fitness, Social Skills, and MORE!

### Water Safety:

- Water is inherently dangerous and should be treated with a respect and understanding that comes from personal interaction in an aquatic environment.
- A recently released study in the Archive of Pediatric and Adolescent Medicine concludes that involvement in formal swim lessons may protect children in the 1- to 4-year age group from the risk of drowning by as much as 88 percent.\*

### Health and Fitness:

- Swimming is a healthy activity that can be continued for a lifetime and develop a swimmer's general strength, cardiovascular fitness, and endurance.
- Your body is buoyant in water, so you can relax your muscles and joints. At the same time, water resists your movements more than air does. The combined effect of these features makes swimming a relaxing but intense form of exercise.
- Low-impact aquatic exercise is ideal for pregnant women, people with mobility problems, and those who just wish to protect their joints.
- According to the Centers for Disease Control and Prevention (CDC): Water-based exercise can benefit older adults by improving the quality of life and decreasing disability. It also improves or maintains the bone health of post-menopausal women.

### Social Skills and Mental Health:

- Swim lessons and aquatic programs are a great way to make new friends, interact socially, and learn the benefits of teamwork while building self esteem.
- According to the CDC: Water-based exercise improves mental health. Swimming can improve mood in both men and women. Parents of children with developmental disabilities find that recreational activities, such as swimming, improve family connections.
