ROOFING NOTICE

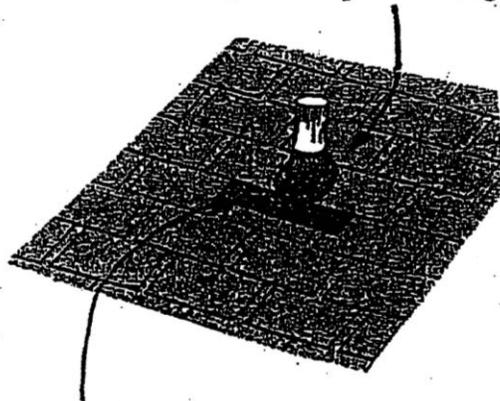

2000 Main Street, Huntington Beach, CA 92648
Office: (714) 536 - 5241 Fax: (714) 374 - 1647

NOTICE

ROOFING CONTRACTS

Effective immediately, all vent piping and/ or penetrations through roofs consisting of composition shingles shall include flashings set in an approved asphalt roofing cement. After the flashing is in place, successive courses shall be embedded in asphalt roofing cement where they overlay the flashing flange. This requirement is consistent with Asphalt Roofing Manufacturers Association specifications and ICBO research requirements for various roofing products.

Upper and side shingles overlap flange
and are set in asphalt roofing cement

Lower part of flange overlaps lower shingles
and is set in asphalt roofing cement.

For inquiries please call the Huntington Beach Building Inspection Division at 714 536-5241.
