Huntington Beach, California
URS Project No. 29404007.10000

Dear Mr. Wong:

URS is pleased to submit this Phase I Environmental Site Assessment for the above-referenced site. We appreciate the opportunity to provide environmental services to Amstar/Red Oak Huntington Beach, LLC c/o Red Oak Investments. Please contact us if you have any questions or require further assistance.

Very truly yours,

URS CORPORATION AMERICAS

Debra B. Stott, P.G., REA
Vice President/Principal Geologist

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

EXECUTIVE SUMMARY

URS Corporation (URS) conducted a Phase I Environmental Site Assessment (Phase I ESA) of the College Country Shopping Center property located at 7302-7400 (even numbers only) Center Avenue, Huntington Beach, Orange County, California (subject property or site). The purpose of the Phase I Environmental Site Assessment is to gather information about the subject site and surrounding areas to identify conditions indicative of releases or threatened releases of hazardous substances, pollutants and contaminants, petroleum or petroleum products, and controlled substances. This Phase I ESA was accomplished by, and limited to, a reconnaissance of the site, a drive-by survey of the site vicinity, and review of agency databases and other reasonably ascertainable records regarding past and current land use for indications of the manufacture, generation, use, storage and/or disposal of hazardous substances at the site.

The Scope of Services performed is in accordance with the proposal to Amstar/Red Oak Huntington Beach, LLC c/o Red Oak Investments from URS dated October 5, 2006. The format and content of the Phase I ESA Report for the subject property are in general accordance with the ASTM Standard Practice for Environmental Site Assessments: Phase I Site Assessment Process E-1527-05 and the United States Environmental Protection Agency (USEPA) 40 CFR Part 312 Standards and Practices for All Appropriate Inquiries (AAI) – Final Rule adopted November 1, 2006.

The subject property consists of an approximately 3.77 acre parcel developed with four one-story commercial structures and a two-story office building (collectively known as the College Country Shopping Center). The structures were completed in 1979 and consist of approximately 59,793-square feet of useable space. The buildings are surrounded by asphalt-paved at-grade parking and landscaped lawns and parking islands. All tenants currently at the subject property use their space for commercial or office use. Current tenants of the property include the following:

7302 Center Avenue	Del Taco
7304-7314 Center Avenue	Taste of France College Books
7320-7370 Center Avenue	Kathy May Restaurant US Postal Service Golden Nails Tanning Salon Southern California Alcohol and Drug Program

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

	Paradise Specialties, Adult Novelty Hair Do Salon Shoe Store Wedding Boutique Cloud Mover Day Spa
7374-7398 Center Avenue	Liquor Store Tina Hudgens & Rose Seefried Antique Store Allied Hearing
7400 Center Avenue	Various office tenants

The subject property consists of one parcel in an area zoned for commercial use. The buildings contain no subterranean areas.

According to review of available historical data, it appears that the subject property was originally developed for agricultural use beginning sometime prior to 1938. The subject property was cleared and developed as a shopping center in 1979. No historical data gaps were identified during URS's review of historical uses of the subject property.

URS observed retail-sized containers of typical maintenance and janitorial supplies including detergents, paints, and sealers. The majority of these materials were observed within a vacant tenant room located in the northwest corner of the office building (7400 Center Avenue) on the ground floor. No evidence of leaks or spills was observed in the area of these materials. No aboveground storage tanks (ASTs) or underground storage tanks (USTs) were reported or observed on the subject property.

Based on the date of building construction (1979), there is a potential for asbestos-containing materials to be present onsite. Readily visible building materials appeared in good condition at the time of the site visit. URS recommends establishing an asbestos-containing material (ACM) Operations & Maintenance (O&M) plan prior to any renovation or demolition activities.

Based on the date of building construction (1979), there is a potential for lead-based paint to be present onsite. Readily visible painted surfaces appeared in good condition at the time of the site visit. No evidence of water intrusion or mold growth was observed during the site reconnaissance. No additional concerns were noted during the site reconnaissance.

The subject property was not identified on the federal or state databases searched. A number of sites in the vicinity of the subject property are included on agency environmental database lists.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

Sites listed on the Environmental Data Resources, Inc. (EDR) database were either chemical use only sites where no chemical spill had occurred, located down-gradient from the site, located at such a distance that impact to the site would be unlikely, or were cases which have been closed or are considered soils only cases by the overseeing agency, indicating that the sites are unlikely to pose a threat to the subject property.

Based on the scope of work conducted for this Phase I ESA, no recognized environmental conditions were found in connection with current or historic operations at the subject property.

No offsite properties with the potential to have created an environmental concern for the subject property were identified.

Based on the information reviewed, it is URS' opinion that no further investigation of the subject property is warranted.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

1.0 INTRODUCTION

Presented in this report are the results of the Phase I Environmental Site Assessment (Phase I ESA) conducted by URS of the College Country Shopping Center property located at 7302 through 7400 Center Avenue, in the City of Huntington Beach, Orange County, California (site or subject property).

This assessment was accomplished by, and limited to, a reconnaissance of the site, a drive-by survey of the site vicinity, and review of agency databases and other reasonably ascertainable information regarding past and current land use for indications of the manufacture, generation, use, storage and/or disposal of hazardous substances at the site.

1.1 ASTM STANDARD AND ALL APPROPRIATE INQUIRY

The format and content of this Phase I ESA Report of the subject property are in general accordance with the ASTM Standard Practice for Environmental Site Assessments: Phase I Site Assessment Process E-1527-05 and the United States Environmental Protection Agency's standards for All Appropriate inquiries (AAI) at 40 CFR Part 312.

1.1.1 All Appropriate Inquiry Standards

The USEPA Rule on All Appropriate Inquiry (AAI) was developed to establish landowner liability protections to property owners under CERCLA as innocent landowners, bona fide prospective purchasers, and/or contiguous property owners. The Rule expands the records review requirements by increasing the search distances beyond the recently superseded ASTM Standard E 1527-00, incorporating mandatory searches for engineering and institutional controls, and mandatory review of local government and tribal records. The records review also requires a search of reasonable ascertainable land title and lien records to identify environmental liens or activity and use limitations, if any, that are recorded against the property. The historical sources review requires that a search of the property to go as far back in history as it can be shown that the property contained structures or was first used for residential, agricultural, commercial, industrial, or governmental purposes. Data gaps identified for the property will be identified and their significance reported. The AAI Rule also requires taking into account commonly known or reasonably ascertainable information within a local community. AAI requires that inquiries be conducted by an environmental professional, which is specifically defined within the Rule.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

1.1.2 ASTM Standard

The American Society of Testing and Materials (ASTM) Standard Practice for Environmental Site Assessments (Standard E 1527-05) was approved November 18, 2005. ASTM Standard E-1527-05 was established and updated to reflect industry requirements brought about by AAI.

The goal of the ASTM Standard is to identify Recognized Environmental Conditions (RECs). By definition under ASTM designation E 1527-05, the term “recognized environmental condition” is defined as the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not recognized environmental conditions.

1.2 PURPOSE

The purpose of the Phase I Environmental Site Assessment is to gather information about the subject site and surrounding areas identify conditions indicative of releases or threatened releases of hazardous substances, pollutants and contaminants, petroleum or petroleum products, and controlled substances.

1.3 SCOPE OF SERVICES

The Scope of Services performed is in accordance with the proposal to Amstar/Red Oak Huntington Beach, LLC c/o Red Oak Investments from URS dated October 5, 2006. The format and content of this Phase I ESA Report of the subject property are in general accordance with the USEPA’s standards for All Appropriate inquiries (AAI) and ASTM Standard Practice for Environmental Site Assessments: Phase I Site Assessment Process.

This Phase I ESA was accomplished by, and limited to, a reconnaissance of the site and review of pertinent documentation available through URS’ standard resources regarding past and current land use for indications of the manufacture, generation, use, storage, and/or disposal of hazardous substances at the site. The site reconnaissance included a walking tour of areas at the

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

subject property that were accessible by foot and a drive-by survey of surrounding and adjacent properties. To meet the objective of this Phase I ESA, URS completed the following tasks:

- Performed a reconnaissance survey of the subject property to make visual observations of existing site conditions and activities, and a drive-by survey of the area within ¼-mile of the site to observe types of general land use. Photographs of the site are provided as Appendix A.
- Reviewed the federal, state, and local database list search provided by Environmental Data Resources, Inc., (EDR) of Milford, Connecticut of known or potential hazardous waste sites or landfills, and sites currently under investigation for environmental violations. The agency lists and search radii results (EDR Report) are provided in Appendix B.
- Conducted inquiries in person, by telephone, or in writing to the appropriate regulatory agencies for information regarding environmental permits, violations or incidents, and/or the status of enforcement actions at the subject property.
- Reviewed pertinent, available documents and maps regarding local physiographic and hydrogeologic conditions in the site vicinity including the potential presence of wetlands, floodplains, coastal zones, aquifer recharge areas, and nearby environmentally sensitive sites.
- Reviewed and interpreted available historical aerial photographs of the site and vicinity for evidence of previous site activities and development that would suggest the potential presence of hazardous substances at the site.
- Reviewed and interpreted archival U.S. Geological Survey (USGS) topographic maps of the site and the area within ½-mile of the subject property for information regarding historical land use potentially involving the manufacture, generation, use, storage and/or disposal of hazardous substances. The quadrangle and years of maps reviewed are provided in the References Section of this report.
- Reviewed available title records and environmental lien information for the subject property.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

- Prepared this report describing the research performed and presenting URS' findings and professional opinions regarding the potential for adverse environmental impacts to the subject property.

1.4 USER RELIANCE

This report has been prepared for use by Amstar/Red Oak Huntington Beach, LLC c/o Red Oak Investments and its affiliated assignees and shall not be relied upon by or transferred to any other party, or used for any other purpose, without the express written authorization of URS.

1.5 LIMITATIONS AND EXCEPTIONS

This report and associated work have been provided in accordance with the terms and conditions of the proposal to Amstar/Red Oak Huntington Beach, LLC c/o Red Oak Investments from URS dated October 5, 2006. Based on the scope of services outlined in the proposal, the ESA specifically did not include testing for asbestos, radon gas, lead-based paint, or lead in drinking water; sampling or testing of groundwater; or evaluation of wetlands or cultural resources. In addition, this ESA did not include a compliance audit.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

2.0 SITE DESCRIPTION

2.1 LOCATION

The site is a shopping center located at 7302 through 7400 Center Avenue, in the City of Huntington Beach, Orange County, California. The site is located at the southeast corner of Center Avenue and Gothard Street. The site vicinity consists primarily of commercial properties and a community college campus. A Site Vicinity map and a Site Plan are included as Figures 1 and 2, respectively.

2.2 FEATURES/USE

The subject property consists of an approximately 3.77 acre parcel developed with four one-story commercial structures and a two-story office building (collectively known as the College Country Shopping Center). The structures were completed in 1979 and consist of approximately 59,793-square feet of useable space. The buildings are surrounded by asphalt-paved at-grade parking and landscaped lawns and parking islands. All tenants currently at the subject property use their space for commercial or office use. Current tenants of the property include the following:

7302 Center Avenue	Del Taco
7304-7314 Center Avenue	Taste of France College Books
7320-7370 Center Avenue	Kathy May Restaurant US Postal Service Golden Nails Tanning Salon Southern California Alcohol and Drug Program Paradise Specialties, Adult Novelty Hair Do Salon Shoe Store Wedding Boutique Cloud Mover Day Spa
7374-7398 Center Avenue	Liquor Store Tina Hudgens & Rose Seefried Antique Store Allied Hearing
7400 Center Avenue	Various office tenants

The subject property consists of one parcel in an area zoned for commercial use. The buildings contain no subterranean areas.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

2.3 SITE VICINITY AND ADJACENT PROPERTIES

URS' observation and evaluation of adjoining properties were limited to features and conditions that were visible from public rights-of-way. The following observations were made:

North: The subject property is bound to the north by Center Avenue. Beyond is the Goldenwest Transportation Center & Park and Ride at 7301 Center Avenue.

South: Adjacent to the south of the subject property is Levitz Furniture Warehouse at 7441 Edinger Avenue.

East: The subject property is bound to the east by Southern Pacific Railroad tracks. Beyond is Bella Terra Mall at 7777 Edinger Avenue.

West: The subject property is bound to the west by Gothard Street. Beyond is Golden West College.

No indication of the use or storage of hazardous materials was noted during the site survey of adjacent structures and businesses.

3.0 PHYSICAL SETTING

3.1 TOPOGRAPHY

The site is located in Section 14, Township 5 South, Range 11 West within the City of Huntington Beach, Orange County, California (Figure 1). Topographic map coverage is provided by the U.S. Geological Survey (USGS), 7.5 minute “Newport Beach, California” quadrangle map. The subject property lies at an approximate elevation of 23 feet above mean sea level (MSL) with a local topographic gradient to the southwest.

3.2 SURFACE WATER

No surface water bodies were observed on or adjacent to the subject property. The nearest surface water is a tributary to the East Garden Grove-Wintersburg Channel (concrete-lined storm water channel), located approximately 1/4 mile to the east of the subject property.

Based on information contained in the EDR Radius Map report, the subject property is located within a mapped 500-year FEMA flood zone.

Wetlands delineation was not included in this Phase I ESA. Information contained in the EDR Radius Map report did not indicate evidence of a current or historical wetland habitat at the subject property. The EDR Radius Map report did not identify Federal wetland areas within one mile of the subject property.

3.3 GEOLOGY AND SOILS

The subject property is located within the coastal basin of Orange County just north of the Huntington Beach Mesa and northeast of the Bolsa Chica Mesa. Holocene alluvial deposits of the regional coastal basin cover the site vicinity. These deposits overlie an erosional surface of late Pleistocene age. In general, the alluvial deposits consist of alternating beds of clay, silt, and very fine to very coarse-grained sand and gravel.

Based on a review of the United States Department of Agriculture (USDA), Soil Conservation Service, Soil Survey of Orange County, California (United States Department of Agriculture, Soil Conservation Service, September 1978), the subject property is underlain by soils primarily classified as the Bolsa series. The Bolsa series consists of somewhat poorly drained soils on alluvial fans. The soils formed in mixed alluvium. Typically, the surface layer is light brownish

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

gray silt loam 12 inches thick. The upper 17 inches of underlying material is light brownish gray silt loam with some very faint mottles. It is light brownish gray silty clay loam with common reddish yellow mottles to a depth of 65 inches or more.

3.4 HYDROGEOLOGY

URS reviewed pertinent maps and readily available literature for information on the surface water and groundwater hydrology of the subject site.

The subject property is located within the Santa Ana River Basin, in a sub area known as the Santa Ana Pressure Basin. The Pressure Basin, is defined as the area in the basin where surface water and near surface groundwater are prevented from percolating in large quantities into the major producible aquifers by clay and silt layers at shallow depths (upper 50 feet). The principal and deeper aquifers within the Pressure Basin are under “confined” conditions. Based on the Seismic Hazard Zone Report of the Newport Beach 7.5-Minute Quadrangle prepared by California Department of Conservation, Division of Mines and Geology, groundwater is expected at a depth greater than 50-feet below ground surface and flows to the southwest.

4.0 SITE HISTORY

URS reviewed readily available historical data pertaining to the subject property. These references were reviewed for evidence of activities that would suggest the potential presence of hazardous substances at the subject property and to evaluate the potential for the subject property to be impacted by offsite sources of contamination. The following subsections are a summary of the review.

4.1 HISTORIC SANBORN FIRE INSURANCE MAPS AND CITY DIRECTORIES

URS requested historical Sanborn Fire Insurance maps from Environmental Data Resources (EDR) for the subject site and surrounding area. EDR reported no coverage in the vicinity of the subject site.

URS reviewed a City Directory Abstract Report provided by EDR for the subject property and surrounding area. EDR searched the Haines Criss-Cross Directory from 1996 through 2006. The subject property address 7400 Center Avenue is first listed beginning in 1996 through 2006 as “office building”. The subject property address of 7302 Center Avenue is first listed beginning in 2001 through 2006 as “Del Taco”. No listings were reported for the remaining subject property addresses.

The City Directory Abstract Report did not provide information on the addresses surrounding the subject property.

4.2 HISTORIC USGS TOPOGRAPHIC MAPS

URS reviewed historic USGS topographic quadrangle maps of “Newport Beach, California” for the years 1901, 1902, 1935, 1951, 1965, 1972, and 1981. No significant structures or features are depicted on the subject property until the 1981 topographic map. One small structure is depicted in the southeast corner of the site. No other structures are depicted on the subject property. A large warehouse size structure is present adjacent to the south of the site beginning in the 1972 topographic map. The two power transmission towers first appear adjacent to the northeast of the site in the 1965 topographic map.

4.3 HISTORIC AERIAL PHOTOGRAPHS

URS reviewed historic aerial photographs for the years of 1938, 1947, 1953, 1968, 1977, 1990, 1994 and 2002. The following is a summary of our review.

1938, 1947, and 1953

The subject site and surrounding area appear developed for agricultural use. Sparse residential development is present in the surrounding area.

1968 and 1977

The subject property appears as fallow agricultural land. Gothard Street is present adjacent to the west of the site. A large shopping center is present to the east of the site and a school campus is under development to the west of the site. Center Avenue is present adjacent to the north of the subject property beginning in the 1977 aerial photograph.

1990, 1994, and 2002

The subject property appears as it does today; developed with five commercial size structures and surrounded by paved parking areas. The surrounding area is wholly developed with a majority of commercial properties along major thoroughfares and residential properties to the southeast.

4.4 EDR HISTORICAL DATABASE REVIEW

URS reviewed the results of the EDR Proprietary Historical Database search presented in the EDR Radius Map report in order to identify past and current occupants of the subject property and surrounding area that may have had the potential to generate, use or store hazardous materials (i.e. manufactured gas plants, historical auto stations and dry cleaning facilities). The subject property was not identified in the EDR Proprietary Historical Databases. The EDR Database Report is included as Appendix B.

4.5 CITY OF HUNTINGTON BEACH BUILDING AND SAFETY DEPARTMENT

URS conducted a file review at the Huntington Beach Building and Safety Department for the subject property addresses. Building records indicate that the subject property was permitted for construction beginning in 1978. Additional permits for insignificant tenant improvements were reviewed, but are not discussed. No permits indicating the presence of USTs, ASTs, clarifiers, sumps, or other potential environmental conditions were found.

4.6 USER PROVIDED INFORMATION

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

URS interviewed Mr. Daniel Cortez, Site Manager for College Country Shopping Center. Information obtained from Mr. Cortez is incorporated into the appropriate sections of this report.

4.6.1 Title Records

A recent title report was provided to URS for review. No indication of past or present potential environmental conditions was found for the subject property.

4.6.2 Environmental Liens

Based on the review of the EDR database report no Federal Superfund liens or deed restrictions were identified in association with the subject property. Based on available information provided by site representatives, no environmental liens are associated with the subject property.

4.6.3 Other Activity and Use Limitations

According to the Orange County Assessor, the subject property is zoned for commercial use. Based on available information, there is no other activity or land use limitations, such as engineering and institutional controls, that are in place on the site or that have been filed or recorded in a registry.

4.6.4 Valuation Reduction for Environmental Issues

Based on information provided by site representatives, there is no indication that the property value of the site has decreased due to environmental issues.

4.6.5 Prior Documents

No prior document is available.

4.7 SUMMARY OF HISTORICAL DATA

According to review of available historical data, it appears that the subject property was originally developed for agricultural use beginning sometime prior to 1938. The subject property was cleared and developed as a shopping center in 1979. No historical data gaps were identified during URS's review of historical uses of the subject property.

5.0 SITE RECONNAISSANCE

On December 1, 2006, Ms. Qi Liu, a URS representative conducted a reconnaissance of the subject property. The reconnaissance consisted of the observation and documentation of existing site conditions accessible by foot and nature of the neighboring property development within ¼-mile of the site. Photographs taken during the site reconnaissance are provided in Appendix A.

Mr. Daniel Cortez, Site Manager for College Country Shopping Center accompanied URS during the site reconnaissance and provided site specific information. Information obtained from Mr. Cortez is incorporated into the appropriate sections of this report.

The subject property consists of an approximately 3.77 acre parcel developed with four one-story commercial structures and a two-story office building (collectively known as the College Country Shopping Center). The structures were completed in 1979 and consist of approximately 59,793-square feet of useable space. The buildings are surrounded by asphalt-paved at-grade parking and landscaped lawns and parking islands. All tenants currently at the subject property use their space for commercial or office use.

Utilities for the subject property and surrounding area are provided by the following:

Water	: City of Huntington Beach
Electric	: Southern California Edison
Sanitary Sewer	: City of Huntington Beach
Natural Gas	: Southern California Gas Company

5.1 HAZARDOUS SUBSTANCES

URS observed retail-sized containers of typical maintenance and janitorial supplies including detergents, paints, and sealers. The majority of these materials were observed within a vacant tenant room located in the northwest corner of the office building (7400 Center Avenue) on the ground floor. No evidence of leaks or spills was observed in the area of these materials.

5.2 STORAGE TANKS

No aboveground storage tanks (ASTs) or underground storage tanks (USTs) were reported or observed on the subject property.

5.3 POLYCHLORINATED BIPHENYLS (PCBS)

Two pad-mounted transformers were present onsite. The transformers are reportedly owned and maintained by Southern California Edison. No evidence of leaks or spills was observed in the area of the transformer.

No other potentially PCB-containing equipment was observed onsite during the site reconnaissance.

5.4 WASTE DISPOSAL

Solid waste generated at the subject property at the time of the site visit consisted of cardboard, small amounts of outdated or damaged food products, office trash and common household type trash. Rainbow Disposal Company, Inc. provides solid waste removal service for the subject property. The two dumpster enclosures were observed onsite; one adjacent to the south of 7302 Center Avenue and one adjacent to the east of 7398 Center Avenue. No leaks or staining was observed in the area of the dumpsters.

5.5 WETLANDS, FLOODPLAIN, COASTAL ZONE

According to the EDR report, the subject property is located within a FEMA identified 500-year flood zone. No wetlands were visible on or adjacent to the subject property. The subject property is not located within a coastal zone.

5.6 DRUMS/OTHER CHEMICAL CONTAINERS

No drums or chemical containers were observed onsite during the site reconnaissance, other than those described in Section 5.1.

5.7 DUMPING

Evidence of unauthorized dumping of chemicals or substances was not observed during the site reconnaissance.

5.8 PITS, PONDS, OR LAGOONS, SEPTIC SYSTEMS, CISTERNS, SUMPS, DRAINS, AND CLARIFIERS

Pits, ponds, lagoons, septic systems, cisterns, and sumps, drains, and clarifiers were not observed at the subject property during site reconnaissance.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

Storm water is directed offsite via concrete swales throughout the parking lot to municipal storm water drains within Gothard Street adjacent to the west of the subject property.

5.9 PESTICIDE USE

Use and storage of pesticides was not observed at the subject property.

5.10 STAINING AND DISCOLORED SOILS

No staining or discolored soils were observed onsite during the site reconnaissance.

5.11 STRESSED VEGETATION

Stressed vegetation was not observed onsite during the reconnaissance.

5.12 UNUSUAL ODORS

No unusual odors were noted during the reconnaissance.

5.13 ONSITE WELLS

Monitoring, water supply, and/or oil or gas production wells were not observed onsite. A review of the Munger Map Book of California and Alaska Oil Fields (2003) one plugged and abandoned dry well is located approximately 1/4 mile northwest of the subject property.

5.14 NEARBY ENVIRONMENTALLY SENSITIVE SITES

No environmentally sensitive sites were observed immediately adjacent to the subject property.

5.15 ASBESTOS

Based on the date of building construction (1979), there is a potential for asbestos-containing materials to be present onsite. Readily visible building materials appeared in good condition at the time of the site visit. URS recommends establishing an asbestos-containing material (ACM) Operations & Maintenance (O&M) plan prior to any renovation or demolition activities.

5.16 LEAD-BASED PAINT

Based on the date of building construction (1979), there is a potential for lead-based paint to be present onsite. Readily visible painted surfaces appeared in good condition at the time of the site visit.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

5.17 RADON

The United States Environmental Protection Agency (USEPA) survey of indoor radon concentrations listed the radon zone designation for Orange County, California, as Zone 3. Zone 3 areas are predicted to have an average indoor radon screening potential less than 4.0 picoCuries per liter of air (pCi/L) for the general area of the subject property. The USEPA action level for radon is 4.0 pCi/L. Therefore, further assessment for radon at the site appears unwarranted.

5.18 OTHER CONCERNS

No evidence of water intrusion or mold growth was observed during the site reconnaissance.

No additional concerns were noted during the site reconnaissance.

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

6.0 GOVERNMENT AGENCY INFORMATION

URS reviewed readily available records regarding past and current site use, contacted applicable agencies regarding potential environmental concerns at the site, and reviewed the agency database list search for potential environmental concerns at surrounding properties. The information obtained during the records review is provided in the following sections.

6.1 DATABASE LIST SEARCH

URS contracted an environmental database firm, Environmental Data Resources, Inc. (EDR) of Milford, Connecticut, to conduct a search for facilities listed by regulatory agencies as potentially having environmental concerns. The search was limited to a one-mile radius (i.e., ASTM and AAI standards) of the subject property to assess whether activities on or near the subject property have the potential to create RECs at the subject property. The complete list of databases reviewed is provided in the EDR Database Report, included as Appendix B and is summarized in the Table presented in Section 6.1.2. It should be noted that this information is reported as URS received it from EDR, which in turn reports information as it is provided in various government databases. It is not possible for either URS or EDR to verify the accuracy or completeness of information contained in these databases. However, the use of and reliance on this information is a generally accepted practice in the conduct of environmental due diligence. The databases searched and the information obtained is summarized in Sections 6.1.1 and 6.1.2.

The following table summarizes the number of facilities in the site vicinity that were identified in the indicated agency databases within the indicated survey distances.

TABLE 1		
AGENCY DATABASE	SURVEY DISTANCE	NUMBER OF SITES IDENTIFIED
United States Environmental Protection Agency (EPA) National Priority List (NPL) for Superfund Sites	1.0 mile	0
U.S. Proposed NPL List	1.0 mile	0
U.S. National Priority List Deletions (Delisted NPL) List	1.0 mile	0

6.2 SUBJECT PROPERTY

The subject property was not identified on the federal or state databases searched.

6.3 ADJACENT PROPERTIES

The database search identified three sites adjacent to the subject property.

- **Golden West College (F16-18)** is located at 15744 Golden West Street adjacent to the west and cross gradient of the subject property. This property was identified in the RCRA-SQG, LUST, CA FID, UST, HIST UST, and SWEEPS databases. A release of gasoline affected groundwater at this site in 1988. The status of the LUST case is reported as “case closed” indicating that remedial action is completed or was deemed unnecessary by the local regulatory agency. Based on its cross gradient location relative to the subject property and its regulatory closure, this facility is not expected to have created a negative environmental impact to the subject property.

- **Huntington Beach Mall (Terra Bella Mall) and associated tenants (J32-37)** are located at 7777 Edinger Avenue adjacent to the east and cross gradient of the subject property. This property was identified in the Cortese, LUST, and CA SLIC databases. The LUST cases were associated with the former Montgomery Wards, Firestone, JC Penny’s, and former Chevron facility at the mall. Only the LUST case at the former JC Penny’s remains open with the regulatory agency. According to documents available through the California Environmental Protection Agency (Cal/EPA), State Water Resources Control Board, GeoTracker Database, this facility is undergoing post remediation verification monitoring. The former JC Penny facility was located approximately 1/4-mile southeast and cross to down gradient of the subject property. Based on the ongoing post remediation monitoring, agency status, and location relative to the subject property, these

**PHASE I ENVIRONMENTAL SITE ASSESSMENT
COLLEGE COUNTRY SHOPPING CENTER, HUNTINGTON BEACH, CA**

listings are not expected to have created a negative environmental impact to the subject property.

6.4 SITE VICINITY

URS reviewed the EDR database report to identify offsite facilities that have suspected or documented environmental concerns or RECs that may negatively impact the subject property. URS' criteria for further evaluating the potential impact of a listed offsite facility are summarized below:

- The listed offsite facility is adjacent to the subject property; or, the listed offsite facility is documented or assumed to be hydrogeologically upgradient and a likely pathway exists for environmentally mobile contaminants to reach the subject property; or, contaminants from the listed offsite facility can reach the subject through other pathways (i.e., surface runoff); and,
- The offsite facility is listed on one of the following databases: Federal NPL, Federal CORRACTS, Federal CERCLIS, Federal ERNS, State SPL, State SCL, State LUST, State Deed Restrictions, State Toxic Pits, Landfill (excluding transfer stations), and is not listed in the database as "closed" or "no further action" (including NFRAP); or,
- The facility adjoins the subject property and is listed as a RCRA large-quantity hazardous waste generator, a CERCLIS NFRAP site, or an UST operator; or
- The facility is a known or suspected concern based on URS' experience or observations made during the site reconnaissance. (i.e., Dry-cleaning operations that may or may not be listed as RCRA-SQG or a non-adjacent UST site that appears to have a remediation system in place).

URS did not identify facilities that, using the criteria discussed above, appeared to be a potential concern.

6.5 UNMAPPED SITES

URS reviewed EDR's Orphan Summary, which is a listing of sites that have not been geocoded based on lack of sufficient data regarding their exact location within the general area. The subject property was not identified as an Unmapped Site. No additional Unmapped Sites identified on the Orphan Summary appear to be located within the ASTM-designated radii of the subject property, and, therefore, URS has no reason to believe that these sites had an impact on the subject property.

6.6 REGULATORY CONTACTS

URS contacted local and state agencies to obtain information regarding the site, such as the status of environmental permits, violations, or corrective actions. Agencies contacted regarding the subject property and a summary of the information obtained are provided below.

- **California EPA, Department of Toxic Substances Control (DTSC), Glendale Office** – The DTSC Glendale office responded that they have no records for the subject property.
- **DTSC, Cypress office** – The DTSC Cypress office responded that they have no records for the subject property.
- **Santa Ana Regional Water Quality Control Board (RWQCB)** responded that they have no records for the subject property.
- **California Office of the State Fire Marshal (CSFM)** – The CSFM responded in writing and reported that there are no pipelines under CSFM jurisdiction in the area of the subject property.
- **South Coast Air Quality Management District (SCAQMD)** – The SCAQMD provided an equipment list for 7320 Center Avenue for the tenants identified as Kath May's and Johnny D's. The list indicates that both facilities are permitted to operate a natural gas charbroiler. No violations were reported.
- **Orange County Sanitation District** responded that they have no records for the subject property address.
- **Orange County Health Care Agency** has not responded to our request for information at this time.

7.0 CONCLUSIONS AND RECOMMENDATIONS

Based on the scope of work conducted for this Phase I ESA, no recognized environmental conditions were found in connection with current or historic operations at the subject property.

Based on the date of building construction (1979), there is a potential for asbestos-containing materials to be present onsite. Readily visible building materials appeared in good condition at the time of the site visit. URS recommends establishing an asbestos-containing material (ACM) Operations & Maintenance (O&M) plan prior to any renovation or demolition activities.

No offsite properties with the potential to have created an environmental concern for the subject property were identified.

Based on the information reviewed, it is URS' opinion that no further investigation of the subject property is warranted.

8.0 PREPARER SIGNATURES AND QUALIFICATIONS

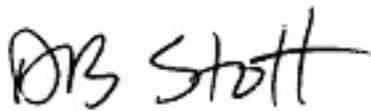

This section includes qualification statements of the environmental professionals responsible for conducting the ESA and preparing this report.

The site reconnaissance was performed by Ms. Qi Liu, of the URS office in Los Angeles, California. Ms. Liu has over one year of experience in environmental site investigations, characterizations, and assessments. The file reviews were performed and the report was written by Ms. Joanna Zarakowski, of the URS office in Los Angeles, California. Ms. Zarakowski has over five years of experience in environmental site investigations, characterizations, and assessments.

The work conducted by Ms. Liu and Ms. Zarakowski was supervised, and the report was reviewed by Ms. Debra Stott, P.G., REA, Vice President, with over 19 years experience in the environmental field, including 15 years experience with Phase I Environmental Site Assessments.

Ms. Stott declares that, to the best of her professional knowledge and belief, she meets the definition of Environmental Professional as defined in §312.10 of 40 CFR 312.

Ms. Stott has the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. With the assistance of Ms. Zarakowski she has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

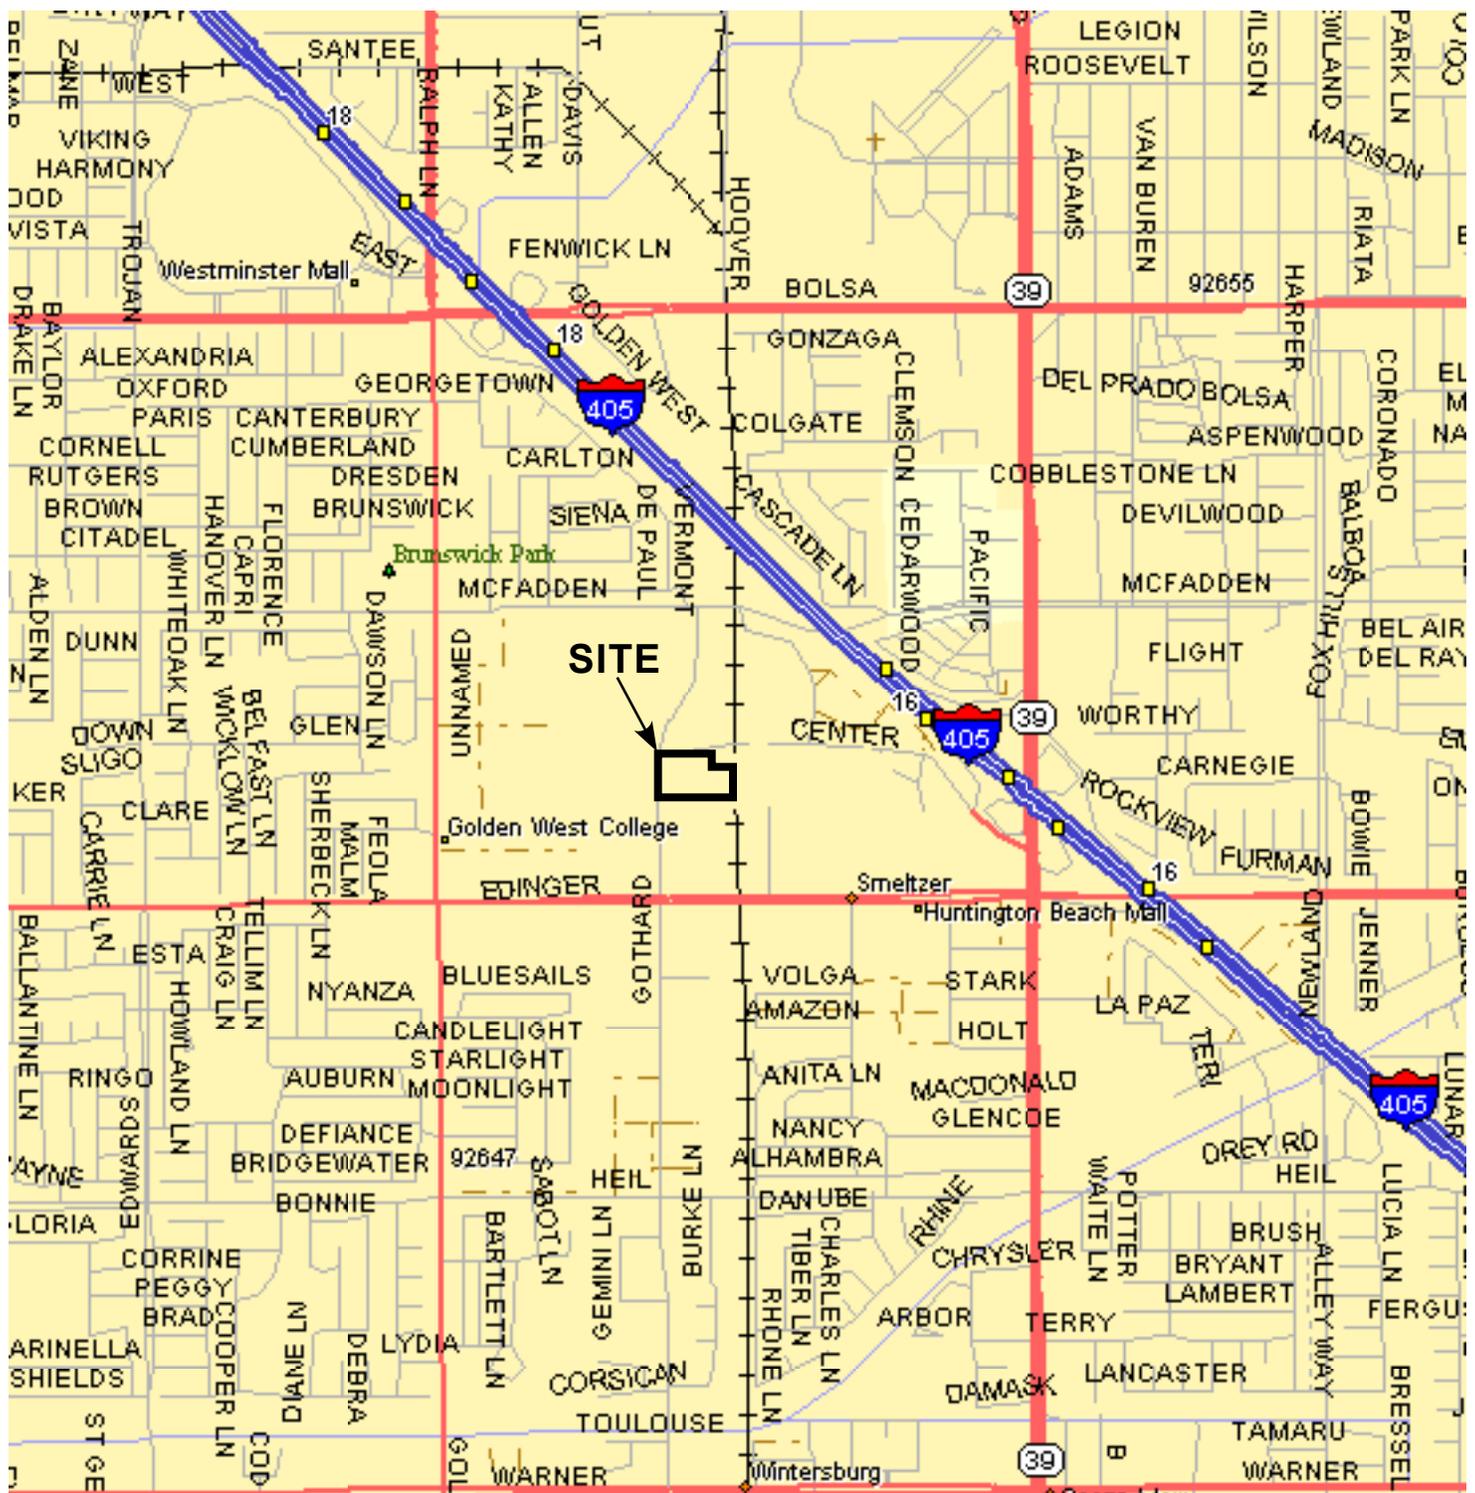

Debra B. Stott, P.G., REA
Vice President/Principal Geologist

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL RECORDS

CERCLIS-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 10/10/2006 has revealed that there is 1 CERC-NFRAP site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Dist / Dir</u>	<u>Map ID</u>	<u>Page</u>
<i>ANO D ART</i>	<i>7436 LORGE CIR</i>	<i>1/4 - 1/2 S</i>	<i>38</i>	<i>69</i>

RCRAInfo: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System(RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month Large quantity generators generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/13/2006 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

CORTESE: This database identifies public drinking water wells with detectable levels of contamination, hazardous substance sites selected for remedial action, sites with known toxic material identified through the abandoned site assessment program, sites with USTs having a reportable release and all solid waste disposal facilities from which there is known migration. The source is the California Environmental Protection Agency/Office of Emergency Information.

A review of the Cortese list, as provided by EDR, and dated 04/01/2001 has revealed that there are 16 Cortese sites within approximately 0.5 miles of the target property.

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 10/11/2006 has revealed that there are 29 LUST sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

CA FID: The Facility Inventory Database contains active and inactive underground storage tank locations. The source is the State Water Resource Control Board.

A review of the CA FID UST list, as provided by EDR, and dated 10/31/1994 has revealed that there are 3 CA FID UST sites within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Dist / Dir</u>	<u>Map ID</u>	<u>Page</u>

SWEEPS: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1980's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 2 SWEEPS UST sites within approximately 0.25 miles of the target property.

California - Hazardous Waste Tracking System - Datamart

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System

(PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Other Pertinent Environmental Activity Identified at Site

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

FEDERAL RECORDS

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 09/27/2006	Source: EPA
Date Data Arrived at EDR: 11/01/2006	Telephone: N/A
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 11/01/2006
Number of Days to Update: 21	Next Scheduled EDR Contact: 01/29/2007
	Data Release Frequency: Quarterly

Date Data Arrived at EDR: 11/01/2006	Telephone: N/A
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 11/01/2006
Number of Days to Update: 21	Next Scheduled EDR Contact: 01/29/2007
	Data Release Frequency: Quarterly

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 09/27/2006	Source: EPA
Date Data Arrived at EDR: 11/01/2006	Telephone: N/A
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 11/01/2006
Number of Days to Update: 21	Next Scheduled EDR Contact: 01/29/2007

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NPL RECOVERY: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 11/17/2006
Number of Days to Update: 56	Next Scheduled EDR Contact: 02/19/2007
	Data Release Frequency: No Update Planned

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 08/09/2006	Source: EPA
Date Data Arrived at EDR: 09/21/2006	Telephone: 703-603-8960
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 09/21/2006
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/18/2006
	Data Release Frequency: Quarterly

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Date of Government Version: 10/10/2006	Source: EPA
Date Data Arrived at EDR: 10/25/2006	Telephone: 703-603-8960
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 09/18/2006
Number of Days to Update: 28	Next Scheduled EDR Contact: 12/18/2006
	Data Release Frequency: Quarterly

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 03/15/2006	Source: EPA
Date Data Arrived at EDR: 03/17/2006	Telephone: 800-424-9346
Date Made Active in Reports: 04/13/2006	Last EDR Contact: 09/05/2006
Number of Days to Update: 27	Next Scheduled EDR Contact: 12/04/2006
	Data Release Frequency: Quarterly

RCRA: Resource Conservation and Recovery Act Information

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRAInfo replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS). The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month. Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month. Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month. Transporters are individuals or entities that move hazardous waste from the generator off-site to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 06/13/2006	Source: EPA
Date Data Arrived at EDR: 06/28/2006	Telephone: 800-424-9346
Date Made Active in Reports: 08/23/2006	Last EDR Contact: 11/22/2006
Number of Days to Update: 56	Next Scheduled EDR Contact: 02/19/2007
	Data Release Frequency: Quarterly

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 12/31/2005	Source: National Response Center, United States Coast Guard
Date Data Arrived at EDR: 01/12/2006	Telephone: 202-260-2342
Date Made Active in Reports: 02/21/2006	Last EDR Contact: 10/24/2006
Number of Days to Update: 40	Next Scheduled EDR Contact: 01/22/2007
	Data Release Frequency: Annually

HMIRS: Hazardous Materials Information Reporting System

Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 08/01/2006	Source: U.S. Department of Transportation
Date Data Arrived at EDR: 10/18/2006	Telephone: 202-366-4555
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 10/18/2006
Number of Days to Update: 35	Next Scheduled EDR Contact: 01/15/2007
	Data Release Frequency: Annually

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 03/21/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/27/2006	Telephone: 703-603-8905
Date Made Active in Reports: 05/22/2006	Last EDR Contact: 09/07/2006
Number of Days to Update: 56	Next Scheduled EDR Contact: 10/02/2006
	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 03/21/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/27/2006	Telephone: 703-603-8905
Date Made Active in Reports: 05/22/2006	Last EDR Contact: 09/07/2006
Number of Days to Update: 56	Next Scheduled EDR Contact: 10/02/2006
	Data Release Frequency: Varies

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

DOD: Department of Defense Sites

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 12/31/2004	Source: USGS
Date Data Arrived at EDR: 02/08/2005	Telephone: 703-692-8801
Date Made Active in Reports: 08/04/2005	Last EDR Contact: 11/10/2006
Number of Days to Update: 177	Next Scheduled EDR Contact: 02/05/2007
	Data Release Frequency: Semi-Annually

FUDS: Formerly Used Defense Sites

The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

Date of Government Version: 12/31/2005	Source: U.S. Army Corps of Engineers
Date Data Arrived at EDR: 09/20/2006	Telephone: 202-528-4285
Date Made Active in Reports: 11/22/2006	Last EDR Contact: 09/18/2006
Number of Days to Update: 63	Next Scheduled EDR Contact: 01/01/2007
	Data Release Frequency: Varies

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients--States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Date of Government Version: 07/10/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/13/2006	Telephone: 202-566-2777

Number of Days to Update: 55	Next Scheduled EDR Contact: 12/11/2006
	Data Release Frequency: Semi-Annually

CONSENT: Superfund (CERCLA) Consent Decrees

Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

Date of Government Version: 12/14/2004	Source: Department of Justice, Consent Decree Library
Date Data Arrived at EDR: 02/15/2005	Telephone: Varies
Date Made Active in Reports: 04/25/2005	Last EDR Contact: 11/17/2006
Number of Days to Update: 69	Next Scheduled EDR Contact: 01/22/2007
	Data Release Frequency: Varies

ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 07/10/2006	Source: EPA
Date Data Arrived at EDR: 07/21/2006	Telephone: 703-416-0223
Date Made Active in Reports: 09/06/2006	Last EDR Contact: 10/02/2006
Number of Days to Update: 47	Next Scheduled EDR Contact: 01/01/2007
	Data Release Frequency: Annually

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 11/04/2005	Source: Department of Energy
Date Data Arrived at EDR: 11/28/2005	Telephone: 505-845-0011
Date Made Active in Reports: 01/30/2006	Last EDR Contact: 09/05/2006
Number of Days to Update: 63	Next Scheduled EDR Contact: 12/18/2006
	Data Release Frequency: Varies

ODI: Open Dump Inventory

An open dump is defined as a disposal facility that does not comply with one or more of the Part 257 or Part 258 Subtitle D Criteria.

Date of Government Version: 06/30/1985	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/09/2004	Telephone: 800-424-9346
Date Made Active in Reports: 09/17/2004	Last EDR Contact: 06/09/2004
Number of Days to Update: 39	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2004	Source: EPA
Date Data Arrived at EDR: 06/22/2006	Telephone: 202-566-0250
Date Made Active in Reports: 08/23/2006	Last EDR Contact: 09/22/2006
Number of Days to Update: 62	Next Scheduled EDR Contact: 12/18/2006
	Data Release Frequency: Annually

TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2002	Source: EPA
Date Data Arrived at EDR: 04/14/2006	Telephone: 202-260-5521
Date Made Active in Reports: 05/30/2006	Last EDR Contact: 10/18/2006
Number of Days to Update: 46	Next Scheduled EDR Contact: 01/15/2007
	Data Release Frequency: Every 4 Years

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 10/19/2006	Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Date Data Arrived at EDR: 10/27/2006	Telephone: 202-566-1667

	Data Release Frequency: Quarterly

PADS: PCB Activity Database System

PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 07/07/2006	Source: EPA
Date Data Arrived at EDR: 08/09/2006	Telephone: 202-566-0500
Date Made Active in Reports: 09/06/2006	Last EDR Contact: 11/29/2006
Number of Days to Update: 28	Next Scheduled EDR Contact: 02/05/2007
	Data Release Frequency: Annually

MLTS: Material Licensing Tracking System

MLTS is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites which possess or use radioactive materials and which are subject to NRC licensing requirements. To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 07/10/2006	Source: Nuclear Regulatory Commission
Date Data Arrived at EDR: 07/20/2006	Telephone: 301-415-7169
Date Made Active in Reports: 09/06/2006	Last EDR Contact: 10/02/2006
Number of Days to Update: 48	Next Scheduled EDR Contact: 01/01/2007
	Data Release Frequency: Quarterly

MINES: Mines Master Index File

Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation information.

Date of Government Version: 08/09/2006	Source: Department of Labor, Mine Safety and Health Administration
Date Data Arrived at EDR: 09/27/2006	Telephone: 303-231-5959
Date Made Active in Reports: 11/27/2006	Last EDR Contact: 09/27/2006
Number of Days to Update: 61	Next Scheduled EDR Contact: 12/25/2006
	Data Release Frequency: Semi-Annually

FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

EDR PROPRIETARY RECORDS

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2004	Source: Department of Environmental Protection

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: PennWell Corporation
Telephone: (800) 823-6277

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Most Recent Revision: 0

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

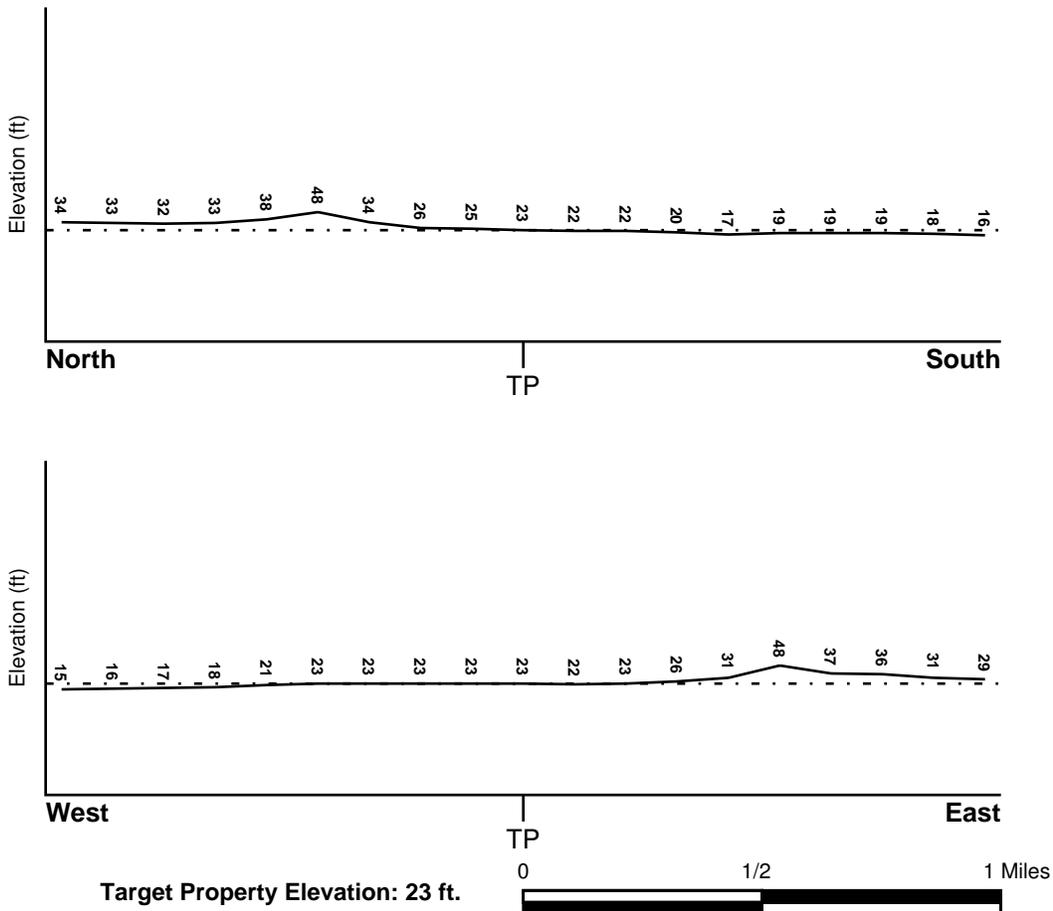

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Target Property County</u> ORANGE, CA	<u>FEMA Flood Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	06059C0027E
Additional Panels in search area:	06059C0036E

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> COSTA MESA	<u>NWI Electronic Data Coverage</u> YES - refer to the Overview Map and Detail Map
--	---

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius:	1.25 miles
Location Relative to TP:	1 - 2 Miles NNW
Site Name:	Ralph Gray Trucking Co
Site EPA ID Number:	CAD981995947
Surficial Aquifer Flow Dir.:	S TOWARD THE FLOOD CONTROL CHANNEL.
Measured Depth to Water:	7 feet in the semi-perched surficial aquifer.
Hydraulic Connection:	The semi-perched aquifer acts as an aquitard, but ground water will move slowly downward through this aquitard.
Sole Source Aquifer:	No information about a sole source aquifer is available
Data Quality:	Information based on site-specific subsurface investigations is documented in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
A1	1/4 - 1/2 Mile South	SW

18	1/2 - 1 Mile NE	SE
23	1/2 - 1 Mile WNW	W
24	1/2 - 1 Mile WSW	SW

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: BOLSA

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	12 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 0.60 Min: 0.20	Max: 8.40 Min: 7.90
2	12 inches	69 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay Soils.	Max: 0.60 Min: 0.20	Max: 8.40 Min: 7.90

Soil Map ID: 2

Soil Component Name: BOLSA

Soil Surface Texture: silty clay loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Not reported

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Permeability Rate (in/hr)	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	12 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 8.40 Min: 7.90
2	12 inches	69 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 8.40 Min: 7.90

Soil Map ID: 3

Soil Component Name: BOLSA

Soil Surface Texture: silty clay loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly. Soils commonly have a layer with low hydraulic conductivity, wet state high in profile, etc. Depth to water table is 1 to 3 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 0 inches

Depth to Bedrock Max: > 0 inches

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

California Drinking Water Quality Database

Source: Department of Health Services

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

RADON

State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.
