

PUBLIC WORKS NEWS BRIEFS

The City is going to repave Springdale Street from Bolsa Avenue to Chinook Drive with a two-inch rubberized asphalt concrete (RAC) surface which contains crumb rubber derived from scrap tires. The project is planned to divert more than 5,400 waste tires, that otherwise would end up in a landfill.

City of Huntington Beach Public Works Department CC-1330 Springdale Street Rehabilitation Project from Bolsa Avenue to Chinook Drive

Funded by a Grant from:

CalRecycle

California Department of Resources, Recycling and Recovery

This Project will Repave a City Street with Rubberized Asphalt Concrete and will divert over 5,400 Waste Tires from California's Landfills
