## Interested in becoming a literacy volunteer?

### How does being a literacy volunteer make an difference?

Adult learners develop confidence and improve English literacy skills to reach personal goals. Learners tell us they are better able to help their children with homework and interact with school personnel, communicate with doctors and fill out medical forms, read directions and notes on the job, and perform everyday tasks like shopping and banking.

### Learners tell us:

*"I participate because I need a better position at my job because before I'm a cook and now I'm a cashier with more benefits." Rebeca*

*"I'm glad for this program because I have improved my English. I understand, speak and write more than before. I'm very proud of myself because I work at a Hotel and I can communicate with guests." Sofia*

*"My goal is to speak, read and write very well. When I first came to the program, I could speak no English and now I can talk to people. I have read more than 12 books in English." Rosa*

### Literacy volunteers have:

- Patience
- Sense of humor
- Compassion
- Flexibility
- Creativity
- Ability to speak, read & write English well
- Ability to volunteer 1-2 hours a week
