Here's Congratulations to the Pier Celebration Committee

PIER CELEBRATION WAS
GIGANTIC SUCCESS

Twenty Thousand Visitors Entertained; Fifteen Hundred Automobiles Here Sunday; One of the Most Successful Entertainments Ever Given in Southern California; Maximum Attendance Saturday Five Thousand; Sunday Ten Thousand.

Never dreamed of anything like it. It was the sublime of any statement made by any of those who have commented on the great success of the last week's event. The weather was perfect and the crowd out in force. The committee had made arrangements in advance. Donations were plentifully received and the final accounts showed a surplus.

Saturday Program:

The sun rose Saturday morning, behind the usual clouds of fog, but at the time the forecast for the day forecasted a change in the weather conditions. The program for the day was developed around the idea of giving the public a chance to enjoy the beauty of the beach.

Three Views of the Largest, Longest Concrete Municipal and Most Artistically Designed Bull-Pier in the World.

Jumped into a gongy on this occasion. First prize of $1 being pulled down by Wesley Reed of Huntington Beach. Second prize of 50 cents by James Long of Santa Ana.

The piano was overstocked, as no one appeared when the race was called by C. E. Knepper with his big megaphone.

Long Beach Band Concert:

One of the chief attractions of the day was the concert by Wilcox's Municipal Band of Long Beach, one of the best municipal bands on the coast. There appears to be more life to the music played by this big municipal band than the music furnished by the average band.

Swimming and Diving Events:

Probably more persons witnessed the swimming and diving events than any other number on the entire program of the two days. Each day there was a ball game at the half-park at the same time, but few attended either of the performances.

Address By Bishop:

Being a week-end on the Southern Pacific, Commissioner Joseph H. Knowland failed to arrive in time to deliver his address.
