FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15301 of the CEQA Guidelines, because the project consists of no expansion in the overall floor area of the existing eating and drinking establishment.

FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 15-018:

1. Conditional Use Permit No. 15-018 for the sales, service, and consumption of alcohol (beer and wine) within an existing 1,799 sq. ft. indoor eating and drinking establishment and approximately 484 sq. ft. outdoor patio will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The existing restaurant is located within an existing commercial center and is approximately 125 feet to the nearest residential use. Additionally, the restaurant, including the outdoor patio, faces Pacific Coast Highway and the closest residences are buffered by an existing drive aisle and parking lot. The proposed alcohol sales and service, as conditioned, and outdoor patio area and will not generate noise, traffic, demand for parking or other impacts above that which currently exists or be inconsistent with the subject property’s zoning. The restaurant will continue to serve food and beverages in conjunction with the proposed use.

2. The sales, service, and consumption of alcohol will be compatible with the surrounding neighborhood because the subject tenant suite is located within an existing commercial center consisting of a variety of uses. The existing restaurant is surrounded by commercial, office, and restaurant uses and therefore will be consistent with the existing land use pattern and compatible with adjacent properties. The use is required to comply with conditions of approval pertaining to alcohol service and hours of operation to assure that any potential impacts to the surrounding properties are minimized. Additionally, the use is subject to noise regulations to ensure compatibility with surrounding uses.

3. The proposed conditional use permit will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance and any specific condition required for the proposed use in the district in which it would be located. There is no physical expansion that includes additional floor area to the existing building as part of this request and the use will comply with all building occupancy/exiting requirements.

4. The granting of the conditional use permit will not adversely affect the General Plan. It is consistent with the Land Use Element designation of Commercial Visitor (CV) on the subject property. In addition, it is consistent with the following objective and policies of the General Plan:
A. Land Use Element

Objective LU 10.1: Provide for the continuation of existing and the development of a diversity of retail and service commercial uses that are oriented to the needs of local residents, serve the surrounding region, and capitalize on Huntington Beach's recreational resources.

Policy LU 10.1.8: Require that entertainment, drinking establishments, and other similar uses provide adequate physical and safety measures to prevent negative impacts on adjacent properties.

B. Economic Development Element

Policy ED 2.4.3: Encourage the expansion of the range of goods and services provided in Huntington Beach to accommodate the needs of all residents in Huntington Beach and the market area.

The proposed use will market its services to local residents and residents in the surrounding region thereby expanding the service-based commercial opportunities in the City. It will be located within an existing commercial center, which includes service and retail uses, and other restaurants with outdoor dining. Based upon the operational conditions imposed, the restaurant with beer and wine sales and service is not anticipated to result in negative impacts on adjacent properties.

CONDITIONAL USE PERMIT NO. 15-017 WAS APPROVED BY THE ZONING ADMINISTRATOR WITH THE FOLLOWING FINDINGS AND CONDITIONS OF APPROVAL. STAFF STATED THAT THE ACTION TAKEN BY THE ZONING ADMINISTRATOR MAY BE APPEALED TO THE PLANNING COMMISSION WITHIN TEN (10) CALENDAR DAYS.

FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Zoning Administrator finds that the project will not have any significant effect on the environment and is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to section 15303 of the CEQA Guidelines, because the project involves the construction of a new duplex.

FINDINGS FOR APPROVAL - CONDITIONAL USE PERMIT NO. 15-017:

1. Conditional Use Permit No. 15-003 for the construction of an approximately 7,300 sq. ft., three-story duplex with an overall building height of 32 ft. will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The subject site is currently undeveloped and protected by a chain link fence. The new building will improve the value of the site and neighborhood, which consists of multifamily developments. It will not generate noise, traffic, odors, or other impacts at levels inconsistent with the existing residential character of the neighborhood. Furthermore, the proposed overall building height is not anticipated to impact surrounding properties because the site is surrounded by two-story and three-story buildings. The project will provide new housing opportunities.

2. The conditional use permit will be compatible with surrounding uses because the new development consists of two attached residential dwelling units in a neighborhood predominantly developed with multifamily housing of comparable design, density, and building height. As conditioned, the proposed duplex is designed to convey a high level of quality and a character consistent with the City of Huntington Beach Urban Design Guidelines.

3. The proposed conditional use permit will comply with the provisions of the base district and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision
Ordinance, including maximum density, height, lot coverage, building setbacks, parking, and open space requirements.

4. The granting of the conditional use permit will not adversely affect the General Plan. It is consistent with the Land Use Element designation of RMH-25 (Residential Medium High Density – 25 units/acre) on the subject property. In addition, it is consistent with the following goal, objective, and policy of the General Plan:

**Land Use Element**

**Goal LU 9:** Achieve the development of a range of housing units that provides for the diverse economic, physical, and social needs of existing and future residents of Huntington Beach.

**Objective LU 9.1:** Provide for the development of single- and multi-family residential neighborhoods.

**Policy LU 9.1.3:** Require that multi-family residential projects be designed to convey a high level of quality and distinctive neighborhood character.

The proposed two unit development is consistent with the existing multifamily residential neighborhood. The building architecture incorporates stone veneer, stucco and varied roof lines. Landscaping and adequate pedestrian circulation from the sidewalk to the building improve the overall design of the project.
