

The City was awarded its fifth waste tire grant with California's Department of Resources Recycling and Recovery (CalRecycle) on April 1, 2019 for City of Huntington Beach street projects that incorporated rubberized asphalt concrete (RAC) in construction.

These grants offset some of the cost to install rubberized asphalt concrete pavement during the reconstruction or rehabilitation of the City's heavily traveled streets. This practice recycles California waste tires and helps the environment by utilizing the ground-up tire rubber in the pavement product, rather than having the tires go into landfills where they would remain forever. The funding from CalRecycle along with City funding sources is all part of the City's program to resurface full width streets and intersections after the removal of failed pavement areas including potholes and crumbling pavement. The final product provides the community with a street that will last 10 to 20 years.

Cal Recycle's grant incentives amount to \$4 per ton or about 5% of the average cost of \$90 per ton of RAC. By placing RAC pavement on about 3-miles of arterial rehabilitation projects per year, the City of Huntington Beach diverts over 43,000 waste tires that would otherwise be placed in landfills where they would remain forever. The City has found the RAC pavement mix to provide a quieter roadway for surrounding areas since it produces less hum from the vehicle tires. It also provides a more pleasant driving surface for the motorist.

The arterial rehabilitation project locations benefiting from the latest CalRecycle grant incentive program are illustrated on the attached vicinity map.

PROJECT LOCATIONS

Calendar Year 2019 Construction

- ① Edinger Ave. (Graham - Bolsa Chica)
- ② Algonquin St. (Warner - Heil)
- ③ Delaware St. (Main. - Ellis)

Calendar Year 2020 Construction

- ④ Graham St. (Slater - Warner)
- ⑤ Slater Ave. (Goldenwest - Gothard)
- ⑥ Slater Ave. (Gothard - Beach)
- ⑦ Newland St. (Yorktown - Garfield)
- ⑧ Atlanta Ave. (Bushard - Surge)

Calendar Year 2020 and 2021 Construction - Before 4/1/21

- ⑨ Talbert Ave. (Springdale - Edwards)
- ⑩ Garfield Ave. (Main - Delaware)
- ⑪ Atlanta Ave. (Delaware - Beach)
- ⑫ Newland St. (Ellis - Talbert)
- ⑬ Brookhurst St. (Yorktown - Garfield)
