PRESS RELEASE

Release Date: December 29, 2011 **Time:** 1:00 PM **Prepared by:** Sergeant J. Haught

Type of Incident: HBPD 2012 Selective Traffic Enforcement Program

Location: Huntington Beach

Date/Time of Occurrence: December 2012

Details:

HUNTINGTON BEACH POLICE TO COMBAT DUI DEATHS AND INJURIES THROUGH TRAFFIC SAFETY PROGRAM

The Huntington Beach Police Department has been awarded a new traffic safety grant for a year-long program aimed at preventing deaths and injuries on our roadways. The \$174,209.00 grant awarded by the Office of Traffic Safety (OTS) to Huntington Beach will aid in the city's ongoing effort to improve traffic safety and the quality of life. Special traffic enforcement measures will be instituted by the Huntington Beach Police Department as part of an on-going commitment to keep our roadways safe through both enforcement and education.

This grant will assist in efforts to deal with traffic safety problems and to reduce the number of persons killed and injured in traffic collisions. The grant activities will specifically target DUI offences, suspended or revoked driver's license violations, red light violations, speeding violations and seatbelt violations. This will be done through the use of DUI/driver's license checkpoints, DUI/driver's license saturation patrols and special enforcement operations.

"Thanks to the dedicated hard work of agencies such as the Huntington Beach Police Department, California has the fewest traffic fatalities since 1944," said OTS Director Christopher J. Murphy. "While this is good news, we know that only by keeping the pressure on, through enforcement and public awareness can we hope to sustain these declines and save lives."

DUI/Drivers License Checkpoints are a key component of the grant. These highly visible, widely publicized events are meant to deter impaired driving, not to increase arrests. Research shows that crashes involving alcohol drop by an average of 20 percent when well-publicized checkpoints are conducted often enough. According to the National Highway Traffic Safety Administration (NHTSA), checkpoints have provided the most effective documented results of any of the DUI enforcement strategies.

PRESS RELEASE

This grant also provides drug impairment training to help combat the increasing problem of drivers under the influence of legal and illegal substances. Grant funding will allow officers to receive specialized training to detect impaired drivers under the influence of legal and illegal drugs. This training will provide on-the-spot assessment of drivers suspected of drug impairment.

For a third year in a row, Huntington Beach Police Officers will conduct a special motorcycle safety enforcement operation. Motorcycle fatalities have finally dropped in California, following a decade long rise in deaths. Huntington Beach Police Officers will be conducting specialized enforcement efforts throughout the next twelve months. Extra officers will be on duty patrolling areas and events where motorcycle crashes and incidents have occurred. Officers will be cracking down on traffic violations made by regular vehicle drivers and motorcyclists that result in far too many motorcycle collisions, injuries and deaths.

“We are on the right path with declining fatalities,” said Murphy. “We have to stick to that path so that some day we can reach the vision we all share – *Toward zero deaths, every 1 counts.*”

Funding for this program is from the California Office of Traffic Safety through the National Highway Traffic Safety Administration.
